

The Food District in Square One

📍 Mississauga, Ontario, Canada

The Results:

Custom Solutions

to meet a vintage yet unique look and custom lumen packages to reach the required levels of illumination

Close Work Partnership

every step of the way with architects, contractors, and client

Reliable Quality

that translates to guaranteed performance, energy savings, and less maintenance

Project Overview:

The Challenge:

Provide custom that matches the vintage look of a T12 fixtures luminaire integrating the latest LED technology for a retail concourse.

The Process:

Viscor worked closely with the architect to produce a customized luminaire that will achieve several essential design requirements.

Our Solution:

Our skilled engineering team customized an existing product (LHBD) to create a unique tri-arm solution with increased length and custom lumen package to achieve the desired illumination levels for a retail concourse environment.
