# Whole Home Charging Solutions
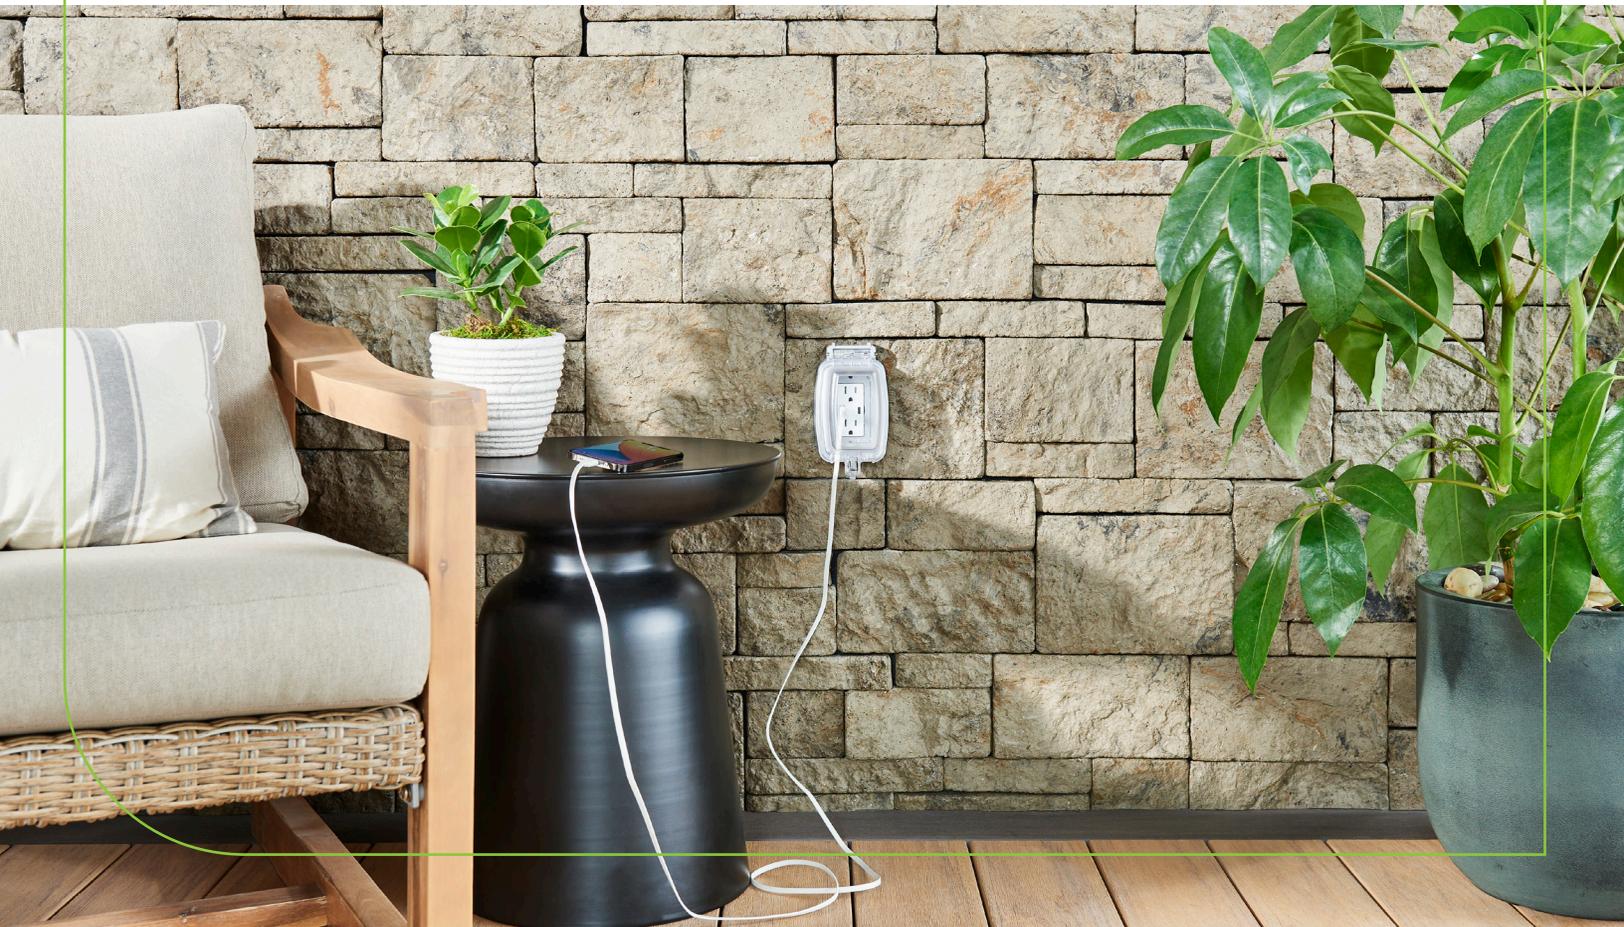

# A Charger for Every Space

Engineered and tested for compatibility with more of the latest devices, Leviton USB In-Wall Chargers deliver fast, efficient charging to phones, tablets, laptops and more: backed by the quality you expect from the brand you trust.

From kitchens, bedrooms and home offices to bathrooms and more, our in-wall chargers can be conveniently used in any room of the home.

A weather-resistant model is available for use in outdoor locations such as patios and decks. A weatherproof cover is required for this application.

**Fast Charging**

# POWERFUL

Deliver hours of enjoyment with just minutes of charging. Leviton's Power Delivery-enabled in-wall chargers support even the most demanding phones, tablets and laptops. Power Delivery, a state-of-the-art charging technology that supplies a higher level of power for faster charging, is built-in to a variety of Leviton in-wall chargers, including the industry's highest power USB in-wall charger, the T5636 - featuring 60W of power on a single port. With built-in overcurrent protection and an internal thermoregulator to help keep valuable electronics safe, Leviton USB In-Wall Chargers are backed by the quality you expect from the leader in electrical safety.

# SAFETY

For over 110 years, Leviton has been at the forefront of developing electrical products with safety in mind, and our USB In-Wall Chargers continue this tradition.

- Our SmartlockPro® GFCI Combination USB offers the trusted safety of Leviton GFCI protection with the advantage of powerful USB charging
- Overcurrent protection on USB ports helps protect electronics from receiving too much power, which can damage devices
- Internal regulator on USB ports prevents electronics from overheating
- Outlets are tamper-resistant to help prevent foreign objects from being inserted

# Choosing The Charger That's Right For You

The newest smartphones, tablets and laptops have Power Delivery built-in, allowing for faster charging speeds – but you need a Power Delivery compatible charger to take advantage.  Leviton's line of PD-enabled chargers are safe, powerful and compatible with more of the newest devices.

## Applications

| 60W Dual Type-C with Power Delivery (PD) | 30W Dual Type-C with Power Delivery (PD) | 50W Type-C and 10W Type A with Power Delivery (PD) |
|---|---|---|
| Cat. Nos. T5636/T5836 | Cat. Nos. T5635/T5835 | Cat. Nos. T5634/T5834 |
| Higher wattage supports fast charging for larger PD-enabled devices like tablets, laptops and more. Great for home offices. | Powerful charger perfect for PD-enabled phones. Perfect for everyday use. | Supports fast charging for phones, tablets, laptops and more. Great for users who require both fast charging for Type-C devices and standard charging for Type A compatible devices. |

### Tamper-Resistant (TR) Outlets

All Leviton USB In-Wall Charger Outlets are Tamper-Resistant. Tamper-Resistant Outlets have a built-in shutter mechanism inside the receptacle that blocks access to the contacts from most foreign objects, allowing only a two- or three-prong plug to be inserted. Leviton Tamper-Resistant Outlets comply with the latest NEC® requirements for tamper-resistant receptacles in residences and childcare facilities.
