

16 - 80 Amp

Fast, Reliable Charging

HARDWIRED STATIONS:

With up to 19.2 kW of output, choose from 32 Amp, 48 Amp and 80 Amp charging stations (32 Amp requires 40 Amp breaker; 48 Amp requires 60 Amp breaker; 80 Amp requires 100 Amp breaker).

PLUG-IN STATIONS:

Features up to 9.6 kW of output with adjustable amperage from 16 Amp to 40 Amp (requires a 50 Amp breaker)

Ease of Installation

Designed to be compact and easy to install, residential EV charging stations from Leviton come with a mounting bracket and the input cable pre-attached, saving time on installation. Available in hardwire and plug-in, choose the station that fits your application.

The Brand That Goes Beyond the Charger

Works with the My Leviton App, allowing users to take control of their whole home, from load center to lighting to EV charger.

To complete the electric vehicle infrastructure for a home, add surge protection, smart load centers and smart breakers from Leviton.

EV SERIES

ELECTRIC VEHICLE CHARGING FROM THE BRAND YOU TRUST

A Station for Every Residential Application

SINGLE FAMILY HOMES

Detached or semi-detached homes

MULTI-FAMILY DWELLINGS

Apartments, condos and other MDUs

There's a good chance you have installed Leviton devices. Anything from switches to dimmers, GFCIs to load centers... all designed to make life simpler, safer and more productive. Parking should be no different. Install fast and reliable electric vehicle charging stations from the brand you trust.

Charge ANY Electric Vehicle

Leviton's residential charging stations feature the industry standard J1772 coupler, meaning they can charge nearly every electric vehicle in North America, including Tesla.*

*Leviton NACS Adapter (Part Number: NACSA)

For Both Indoor and Outdoor Use

The thermoplastic, water-resistant enclosures are rated NEMA Type 3R, meaning Leviton's charging stations can operate in any weather condition. With the included mounting bracket or optional pedestal, the stations can be installed anywhere, from garages to outdoor parking spaces.

J1772™

Optional Access Control

Users can prevent unauthorized use of the charging stations if desired. All stations come with RFID disabled, simply tap the RFID card to activate.
