

RCA Feedthrough MOS Module

APPLICATION

Leviton RCA Feedthrough Multimedia Outlet System (MOS) Modules adapt RCA video to modular MOS wallplates. Each one-unit-high module contains three adapters: red audio-right, black audio-left, and yellow-video for composite video with audio applications, and red-P_R, blue-P_B, and green-Y for component video applications. RCA video is ideal for classrooms and boardrooms where local input or output is required for audio/visual signals from peripherals such as televisions, VCRs, DVD players, and game consoles.

41292-3Rx

SPECIFICATION

RCA module shall contain three adapters: red audio-right, black audio-left, and yellow-video for composite video with audio applications, and red-P_R, blue-P_B, and green-Y for component video applications. RCA video shall provide video for applications where local input or output is required for audio/visual signals from peripherals such as televisions.

FEATURES

- One-unit-high module with three RCA adapters
- Includes A/V specified colors: red-right, black-left, yellow-video (composite); red-P_R, blue-P_B, green-Y (component)

DESIGN CONSIDERATIONS

- Accommodates all RCA patch cords
- One-unit-high module for Leviton Multimedia Outlet System wallplates

PHYSICAL SPECIFICATIONS

Housing Material:	Fire-retardant plastic, rated UL 94V-0
A/V Specification:	Composite video with audio: red-right, black-left, yellow-video Component video: red-P _R , blue-P _B , green-Y
Connectors:	Gold-plated, feedthrough
MOS Compatibility:	1 Unit high
Colors:	White, light almond, ivory, grey, black

REGULATORY

- cULus listed (UL 1863, CAN/CSA-C22.2, No. 182.4-M90)

COUNTRY OF ORIGIN

China
