

# 1x9 Bridged Telephone Expansion Board and Module

#### **APPLICATION**

The 1x9 Bridged Telephone Expansion Board and Module bridges up to four telephone lines through to nine outlet locations, allowing operation of up to nine separate telephones per line. The 1x9 Bridged Telephone Expansion Board is available for Leviton preconfigured structured cabling panels. The 1x9 Bridged Telephone Module includes and expansion board on a single ABS plastic mounting bracket. The module fits into any Leviton Structured Media® Enclosure and is suitable for phone, fax, or modem applications.

**Expansion Board** 

## **SPECIFICATION**

The 1x9 Bridged Telephone Expansion Module shall meet or exceed all applicable standards as UL recognized components. The board shall be of printed circuit board construction and the bracket of white, ABS plastic. It shall connect up to four separate telephone lines to nine outlet locations. It shall be available as an expansion board for a pre-configured structured cabling panel or as a stand-alone module on an ABS plastic bracket.

#### **FEATURES**
