

## Hi-Fi 2 Updates: Android App and BitWise Integration

### Integrate and Automate

Leviton has developed stand-alone Android apps for controlling the Hi-Fi2 4x4 and 8x8 distributed audio systems. Receive total control over your audio experience by selecting a music source to play in a single room or throughout the entire home. Adjust volume levels throughout the home, change tracks, power on/off, and more. Both Android and iOS apps are available free and have zero subscription fees.

Additionally, a free integration with Leviton BitWise AV systems provides a complete entertainment solution for businesses and residences. The integration is available via the online BitWise Store as a free module download. It includes drag and drop commands, feedback, plus built-in GUI content for single zones or complete systems.

- Free app download via iTunes and Google Play stores
- Simple download, no contracts or recurring fees
- Works with all Hi-Fi 2 systems for stand-alone control
- Free integration into BitWise AV Systems.

## Ordering Information

| Description   | Cat. No.  |
|---|-----------|
| Free app download via iTunes and Google Play stores                             | N/A       |
| BC1 Automation Controller - US  | BWBC1-000 |
| BC1 Automation Controller - INTL  | BWBC1-0NT |
| BC2 Automation Controller - US  | BWBC2-000 |
| BC2 Automation Controller - INTL  | BWBC2-0NT |
