PATIENT ROOMS

BEHAVIORAL HEALTH CARE

Healthcare Control Applications

Entrances/Lobbies

- Creates a great first impression
- Makes all feel welcomed, safe and secure
- Ensures a comfortable atmosphere

Nurse Stations/Reception

- Provides ample glare-free illumination
- Creates a comforting and relaxing experience for occupants
- Saves energy when not fully staffed

Patient Rooms

- Helps to create a healing environment
- Provides calm, safe, and stress-free atmosphere
- Promotes well-being for the patient

Operating Rooms

- Provides complex lighting suited for patient and staff
- Enables clear vision in surgical suite for performing essential tasks
- Allows for precise control of light and multi-level lighting

Laboratories/Clean Rooms

- Enables task-oriented work
- Provides ambient lighting
- Promotes visual acuity

Behavioral Healthcare

- Creates a pleasant atmosphere
- Influences the mood of the occupants
- Sets a calm environment for all occupants

Boardrooms/Meeting Rooms

- Enables an optimal meeting environment
- Supports a variety of presentation requirements, including AV
- Encourages attentiveness, focus, and productivity

Corridors

- Helps occupants find their way with ease
- Provides energy efficiency and savings
- Ensures instant visibility

Stairwells

- Provides efficient lighting to guide occupants
- Creates a safe environment for occupants to travel between floors
- Meets code compliance for egress lighting

Parking Structures

- Enhances safety and security for customers and employees
- Ensures easy and safe movement of vehicles
- Reduces energy and maintenance costs while improving lighting performance
