Angled UTP White QUICKPORT™ Patch Panels

APPLICATION

Angled UTP White QUICKPORT Patch Panels feature a customizable design for fiber and copper applications, accepting all QUICKPORT snap-in jacks for optimum rack density on industry-standard racks. The panels feature an angled design to easily route cables into vertical cable managers, eliminating the need for horizontal front cable management bars. Panels fit all industry-standard 19-inch racks and cabinets. They are available with either black silkscreen blocks or magnifying lens label holders.

24-port panel, 1RU,
w/ magnifying lens

48-port panel, 2RU

SPECIFICATION

Angled patch panels shall be made of 16-gauge steel, and shall have a white powder coat finish with numbers for each port. Panels shall be available with black silkscreen blocks for labeling or magnifying lens label holders. The panels shall be offered in 24- and 48- port configurations. The panel shall have the ability to allow for single port replacement of inoperative ports.

FEATURES

- White finish with black silkscreen blocks
- Optional magnifying lens label holders available
- Cords route directly into vertical managers from angled panel, saving rack space by eliminating horizontal management
- Models with magnifying lens ensure visibility of port labels
- Panel comes with silver mounting screws

DESIGN CONSIDERATIONS

- Mounts on 19-inch equipment racks
- Accepts all QUICKPORT snap-in modules
- Write-on blocks and port numbers are silkscreened in black
- Versions available with magnifying lens label holder
- Rear cable manager not included, sold separately (49006-AMB)

STANDARDS & REGULATIONS

- ANSI/TIA-568-D

MECHANICAL SPECIFICATIONS

Dimensions: See page two
Materials: 16-gauge steel
Mounting: 19-inch rack mount
Color and Finish: White powder coating
Temperature (Storage):   -40 ºC to +70 ºC
Temperature (Operating): -10 ºC to +60 ºC
Humidity (Maximum): 95% relative humidity, non-condensing
