

With no set-up, hub or internet required, programming and managing your lighting is made simple with Bluetooth® technology. Just download the free Decora Digital Dimmer & Timer App, pair with your smartphone or tablet, and get started.

## Safety

- Use the timer function to easily schedule lights to turn on and off when you are away at set or random times. This gives your home a “lived-in” look which acts as a deterrent to potential intruders.
- Never come home to a dark house again. Schedule porch and indoor lights to turn on before you arrive home\*.
- Set the countdown/sleep timer in your child’s room. Program how long you want the lights to stay on and then switch off automatically as your child drifts off to sleep.
- When lights are dimmed, you can raise the light level before walking from the couch or getting out of bed for a safer trip.

## Comfort and Convenience

- Raise or lower the light level from the comfort of your couch or bed. Ideal for movie night, sports or reading.
- Schedule porch lights to turn on at sunset and off at sunrise, saving you the inconvenience of running around your home to do it manually each morning and evening\*.
- Dim and raise light level during dinner parties without getting up from the table.
- Use the Fan Speed Control to program ceiling fans to turn on and off at scheduled times. Perfect for cooling a room before arriving home or falling asleep with the fan on and scheduled to switch off during the night.

*\* Once programmed, the built-in astronomical clock automatically adjusts to local sunrise and sunset times as well Daylight Saving Time so you just set it and forget it.*

## Energy Savings

Dimming lights reduces energy consumption and helps save on energy costs. Consider dimming when: watching television, dining, entertaining, and any time when fully bright light is not necessary for the task you are performing.

Take advantage of the option to set the maximum light level for optimal energy savings. The dimmer bar preserves the setting so there is no need to reset each time the light is turned on.
