

Attractive Switch Designed for Outdoor Living

Enhance Outdoor Space

Leviton Decora Weather-Resistant Switches, with their sleek appearance and smooth operation, provide a stylish and convenient way to control outdoor lighting, motor loads, and more directly from the home or building's exterior. This all-in-one solution eliminates the need for the addition of an outdoor protective cover. The new Decora Weather-Resistant Switch is the latest addition to the Leviton line of protective outdoor solutions which includes weather-resistant receptacles, GFCIs and USB Charger Devices.

The Decora Weather-Resistant Switch features UV stabilized thermoplastic construction and extra corrosion protection to withstand the rigors of exposure to the elements. In a patent pending design element, actuation is achieved with magnets to allow the subplate/switch to be impervious to water intrusion.

Applications

Ideal for residential and commercial outdoor kitchens and bars, outdoor lighting, patio, pool and spa areas, sheds, gazebos, cabanas, outdoor ceiling fans, and fountains.

Wallplate included.
No outdoor cover required.
