

Plug-in Dimmer, Zigbee® Certified

decora smart™

The DG3HL Plug-In Dimmer can also be controlled via Voice or App depending on the Zigbee hub it is paired to. Some common Smart Home hubs supporting Zigbee include the Xfinity Home Touch Screen, Amazon Echo Plus and Echo Show (2nd Gen), and Samsung SmartThings.

The DG3HL is ideal for any residential setting where remote dimming of LED/CFL (up to 100W) and incandescent (up to 300W) is needed. Leviton's Decora Smart lighting controls are engineered to function with extremely sensitive, low-wattage light sources, such as a single LED bulb or a strand of holiday lights, ensuring LEDs do not glow when off.

APPLICATIONS

Leviton's Decora Smart family of Zigbee enabled lighting controls are the perfect addition to any smart home automation system using a Zigbee hub, gateway, or controller. The DG3HL Decora Smart 300W Plug-In Dimmer is Zigbee 3.0 certified and includes the latest in Zigbee technology for interoperability and network security. Zigbee uses mesh networking technology to provide quick, reliable, and secure communication to a wide variety of Zigbee certified smart products such as sensors, thermostats, locks, and more.

With the DG3HL, dim and brighten table and floor lamps from 0-100% or turn lights on and off wirelessly as part of a Zigbee network. The DG3HL is compatible with incandescent and LED / CFL lighting loads. When paired with a Zigbee compatible hub, gateway, or controller, the DG3HL dimmer provides remote lighting control from anywhere and can be included in scene-based lighting, schedules, and other smart home activities – such as automating your plug-in lamps and holiday lighting without any new wiring – simply plug-in the device and pair to a compatible Zigbee hub, gateway, or controller.

FEATURES AND BENEFITS

- Provides polarized 300W-120VAC NEMA 5-15R receptacle
- Indoor Use Only
- Protected memory maintains ON/OFF status of loads during minor power fluctuations
- LED Control Button for visual feedback and manual On/Off control
- Zigbee 3.0 Certified

RATINGS

- LED/CFL - 100W - 120VAC, 60Hz
- Incandescent - 300W - 120VAC, 60Hz

AGENCY STANDARDS AND COMPLIANCE

- Complies with UL 1472
- CSA Certified
- NOM Certified
- Complies with FCC Part 15, Class B
- Zigbee 3.0 Certified

WARRANTY INFORMATION

- Five-Year Limited Warranty
