

vizia rf™ Serial Interface Module

Join a revolution in the home automation industry with Vizia RF + wireless lighting and home control technology. Innovative and affordable, with features that are desired by professional installers and appreciated by homeowners, Vizia RF + helps reduce energy consumption. It provides dramatic scene transitions, extended zone lighting controls, industry standard 2-way status updating and true integration of household electrical devices. Use it to enhance new construction or to add value to older homes, condominiums and apartments.

The Vizia RF + Wireless Home Control System offers scalable, easy-to-install, remote control of appliances and lighting, as well as one-button scene and zone (area) lighting control to create the perfect ambiance. And, unlike previous home control systems, Vizia RF + does all of this without experiencing interference or inconsistent performance.

The Vizia RF + Plug-in Serial Interface Module RS232 (VRCoP-1LW) is ideal for any residential application where a serial interface is required to integrate with other control systems. This is accomplished through a RS232 connection with a PC based application used to configure a home automation system. ASCII based protocol available on request. The VRCoP is configured using the VRUSB device and downloadable software.

FEATURES AND BENEFITS

- Transient surge protection to IEC Level 4
- ESD protection to IEC 1000 4-2 Level 4 to protect against damage
- Indoor use
- Wireless communication between installed devices in system
- Green LED locator
- Z-Wave® compatible

Plug-in Serial Interface Module RS232 ASCII Interface

- Provides RJ11 to DB9 or RJ11 to RJ11 connector for RS232 or selected Leviton component connection
- Rated 120 VAC 60Hz
- 2-way communication between related Controller(s) and Module for changes initiated locally
- Protected memory maintains device ID programming during minor power fluctuations
- Includes serial cable

VRCOP-1LW

SPECIFICATIONS

- Operating Temperature: 0°F to 55°C
- Non-Operating: -10°C to 85°C
- Relative humidity: 20% to 90% (non-condensing)
