WARNINGS AND CAUTIONS

• TO AVOID FIRE, SHOCK, OR DEATH; TURN OFF POWER at circuit breaker or fuse and test that power is off before wiring!
• To be installed and/or used in accordance with appropriate electrical codes and regulations.
• If you are unsure about any part of these instructions, consult an electrician.

INSTALLATION INSTRUCTIONS

DESCRIPTION

The Intellect™ Room Controller is designed to be used to coordinate and control multiple Intellect fixtures and sensors within a room. It manages all energy management functionality both as required by code and as desired by the user. All aspects of the system can be configured to meet the specific needs of the end-user and their application. An initial configuration can be created without any special tools using only the room controller and installed devices within the room. System refinements can be made using the Leviton Intellect app from your smartphone or other Bluetooth enabled Android or iOS device.

NOTES:
• Installs into standard wall boxes.
• May be multi-ganged.
• Multiple devices may be used within the same room for control from multiple locations.
• Each room requires at least one Room Controller.

INSTALLATION

1. TO AVOID FIRE, SHOCK, OR DEATH; TURN OFF POWER at circuit breaker or fuse and test that power is off before wiring!
2. Remove 3/4" of insulation from each wire lead and connect per diagram. After all connections have been made, ensure that all wire connectors are firmly attached and there is no exposed copper.
3. Gently place wires and device into wall box and secure with mounting screws.
4. Install Decora® wallplate. INSTALLATION IS COMPLETE.

* NOTE: This device accepts Decora® wallplates (both types - screwless and with screws). If screw plates are used, remove the four tabs at the corners of the mounting strap to avoid interference with the wallplate.

COLOR CHANGE AND BUTTON KITS

NOTE: Buttons and wallplates can be custom engraved to your specifications. Contact Leviton for availability and order details. To install a color change kit:
1. Squeeze the sides of the button frame to release snap tabs and remove.
2. Install new buttons and wallplate.

1. System Configuration is performed using the Leviton application, Intellect, downloadable from Google Play or the Apple Store, using any Bluetooth enabled Android or iOS Device. Use the application to:
   a) Manually add/remove fixtures from the room
   b) Adding additional keypads to the room
   c) Change Sensor Parameters like Sensitivity, Timeout, target light level
   d) Create user defined groups of fixtures
   e) Define Scenes (Meeting, Presentation, Lunch, Dinner, Test, etc.)
   f) Monitor Energy Usage and View Energy Usage Trend (on meteorology enabled devices)

2. Factory Default: The room controller can be restored to factory default settings by pushing and holding the factory default button (see figure on prior page for location) for 10 seconds when the station is powered up. During the restore process, all LED’s on the station will be blinking at you rapidly.
   
   NOTE: Factory default button is located under the buttons on the PCB. To access, the plate and button assembly needs to be removed.

* It should be expected that refinement is required to the initial configuration. Based on some room geometries, the system may not be able to accurately configured itself automatically. This is a simple process that you will be led through by the Intellect smart device application.

FCC COMPLIANCE STATEMENT
Contains Radio Module FCC ID: OGH-DLDNK
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

Any changes or modifications not expressly approved by Leviton could void the user’s authority to operate this equipment.

INDUSTRY CANADA COMPLIANCE STATEMENT:
Contains Radio Module IC: 2473-DLDNK
This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by Leviton could void the user’s authority to operate this equipment.

This Class B digital apparatus complies with Canadian CAN ICES-3(B)/NMB-3(B).

TRADEMARK DISCLAIMER: Use herein of third party trademarks, service marks, trade names, brand names and/or product names are for informational purposes only, are/may be the trademarks of their respective owners; such use is not meant to imply affiliation, sponsorship, or endorsement.

FOR CANADA ONLY
For warranty information and/or product returns, residents of Canada should contact Leviton in writing at Leviton Manufacturing of Canada Ltd to the attention of the Quality Assurance Department, 165 Hymus Blvd, Pointe-Claire (Quebec), Canada H9R 1E9 or by telephone at 1 800 405-5320.

LIMITED 5 YEAR WARRANTY AND EXCLUSIONS
Leviton warrants to the original consumer purchaser and not for the benefit of anyone else that this product at the time of its sale by Leviton is free of defects in materials and workmanship. This warranty is in accordance with any labels or instructions. There are no other or implied warranties of any kind, including merchantability and fitness for a particular purpose, but if any implied warranty is required by the applicable jurisdiction, the duration of any such implied warranty, including merchantability and fitness for a particular purpose, is limited to five years. Leviton is not liable for incidental, indirect, special, or consequential damages, including without limitation, damage to, or loss of use of, any equipment, lost sales or profits, or delay or failure to perform this warranty obligation. The remedies provided herein are the exclusive remedies under this warranty, whether based on contract, tort otherwise.
