Home Builder Products

Building better, smarter homes... together.

THE FUTURE IS ON®
Leviton has been recognized by BUILDER Magazine as the “Brand Used Most” for Lighting Control/Switches for the past 21 consecutive years.
The Leviton Load Center
State-of-the-Art Technology Builds a Smarter Load Center

Take power to new heights with the award-winning Leviton Load Center - the industry’s most intelligent circuit breaker system available today. It’s the smart solution that offers unparalleled management of your home’s electrical system.

**Approachable**
Modern design with intuitive functionality and appealing aesthetics

**Smart**
Wi-Fi® or Ethernet connection options for remote monitoring, tripping and firmware updates

**Safer**
The only GFCI circuit breaker that exceeds UL requirements¹ for ground-fault protection

**Easy Installation**
Allows for all wiring at rough-in, without any circuit breakers present²

---

¹. The UL943 standard exempts GFCI circuit breakers from detecting and warning when the trip solenoid and/or switching semiconductor fails in the “open” state, rendering the GFCI circuit breaker incapable of tripping in response to a fault condition, resulting in complete loss of GFCI protection.

². For applications up to 60A when using copper wire; or 50A when using aluminum wire.
The Leviton Load Center

Load Centers
- Available for indoor and outdoor use in 20, 30, 42 or 66 (indoor only) space enclosures
- Meter Main units have 8 circuit capacity
- Meter-Load Center Combination units available with 30 or 42 circuit capacity
- All hot and neutral wires terminate at custom lugs in the panel, not at the circuit breaker*, streamlining installation
- The entire panel can be wired at rough-in without circuit breakers installed. Simply plug-on circuit breakers at final installation
  *For applications up to 60A when using copper wire; or 50A when using aluminum wire.

Leviton.com/loadcenter

Main and Branch Circuit Breakers
- Over 50 different variations including AFCI, GFCI, Dual Function AFCI/GFCI, GFPE, Standard and Smart with various amp ratings
- Leviton GFCI, AFCI and Dual Function AFCI/GFCI circuit breakers feature our patented reset lockout and will not reset if ground-fault or arc-fault protection is compromised
- Leviton GFCI circuit breakers are self-testing and periodically conduct an automatic internal test to confirm that they can respond to a ground-fault
- Smart circuit breakers offer users easy access to load center data View real time energy consumption and trends, get alerts when a circuit breaker trips, or even trip one remotely - and so much more.

Leviton.com/loadcenter

Accessories/Options
- Locking and interlocking devices - handle padlock for branch/main circuit breakers, mechanical interlock for backup power application
- Lugs, Ground and Neutral Bar Kits
- Outdoor and Meter Combination accessories including conduit hubs, closing plate, ground connector, sealing rings and more
- Optional door with observation window available for indoor units

Leviton.com/loadcenter

Surge Protection
- Indicator lights showing protection status
- Compatible with home automation systems
- Connected equipment coverage up to $25,000

My Leviton Mobile App—Take Control of Your Home

Single App Control with

An industry first, the My Leviton app consolidates control of the Leviton Smart Load Center and the Decora Smart™ Wi-Fi® product lines, enabling users to seamlessly control load center activities and home lighting from anywhere in the world using their smartphone or tablet.

Available for download at
Smart Technology
Leviton offers a wide selection of automated dimmers, switches, receptacles and plug-in products for automated control of lights, motor loads, appliances and more. All devices support LED, CFL, incandescent and halogen lamps.

**Decora Smart™ with Wi-Fi™ Technology**
- Schedule lights and connected loads to turn ON/OFF at user selected times
- Voice control using Amazon Alexa and Google Assistant
- Easily group smart devices into rooms and create scenes to activate multiple lights at once
- No hub required
- Shown with Decora Plus™ screwless wallplate option
Leviton.com/decorasmart

**Decora Smart™ with Z-Wave Plus Technology**
- Schedule or dim lights when home or away using a compatible Z-Wave controller
- Compatible Z-Wave controllers include Wink HUB, Samsung SmartThings™ and smart security systems
- Can be used with Amazon Alexa or Google Assistant with compatible hub
Leviton.com/decorasmart

**Decora Smart™ with HomeKit™ Technology**
- Pair Decora Smart Home App with Apple for advanced lighting control when home or away
- Apple HomeKit technology provides an easy, secure way to control lights using an iPhone®, iPad® or iPod Touch®
- Users can turn lights ON/OFF or dim with their voice using Siri®
- Apple Home App and Apple TV® allow for remote control of all connected accessories from an iOS device and communication to third-party devices
Leviton.com/decorasmart

**Decora Digital™ with Bluetooth® Technology**
- Combination dimmer, 24-hour programmable timer and countdown timer with Bluetooth technology
- Control manually or using free iOS or Android Decora Digital Dimmer & Timer app
- Bluetooth compatibility provides local control within a 30-foot range – no hub, gateway or internet needed
Leviton.com/decoradigital
Decora Digital™ Dimmer with Bluetooth® Technology
- Combination dimmer, 24-hour programmable timer and countdown timer with Bluetooth technology
- Control manually or using free iOS or Android Decora Digital Dimmer & Timer app
- Use the Decora Digital Dimmer & Timer App to modify the minimum light level in order to maximize the dimming range if flickering occurs at lower dimming levels
- Bluetooth compatibility provides local control within a 30-foot range – no hub, gateway or internet needed
- Digital circuitry for programmable soft fade ON/OFF
- Program timed events at set or random times
- Single pole or 3-way when used with a Decora Digital remote (DD00R-DL)
- Neutral required (No neutral required for DDLO6)
- Fits easily into standard wallbox and is suitable for multi-gang installations
- For use with dimmable LED, dimmable CFL, incandescent, halogen, magnetic low voltage and Mark 10® Powerline loads
- Comes packaged in White with Ivory and Light Almond color change kits
- Shown with Decora Plus™ screwless wallplate option
Leviton.com/decoradigital

Decora® Slide Dimmer
- Integrated linear full-range slide control for easy, precise operation
- Adjustment switch to modify the minimum light level in order to maximize the dimming range if flickering occurs at lower dimming levels
- Separate ON/OFF switch that preserves the selected brightness setting
- Single pole or 3-way when used with a 3-way switch
- No neutral required (Neutral required for DSE06)
- Optional locator light
- Fits easily into standard wallbox and is suitable for multi-gang installations
- Designed for optimal control of dimmable LED and CFL lamps. Also compatible with incandescent and halogen
- Comes packaged in White with Ivory and Light Almond color change kits
- Shown with Decora Plus™ screwless wallplate option
Leviton.com/dimmers
**IllumaTech® Dimmer**
- Designed for optimal control of dimmable LED and CFL lamps. Also compatible with incandescent and halogen
- Adjustment switch to modify the minimum light level in order to maximize the dimming range if flickering occurs at lower dimming levels
- Fits easily into standard wallbox and is suitable for multi-gang installations
- Six product options in each box for superior versatility; 3 changeable color faces and single pole or 3-way control
- Shown with Decora Plus™ screwless wallplate option

[Leviton.com/dimmers](http://Leviton.com/dimmers)

**SureSlide® Dimmer**
- Designed for optimal control of dimmable LED and CFL lamps. Also compatible with incandescent and halogen
- Separate ON/OFF switch that preserves the selected brightness setting
- Adjustment switch to modify the minimum light level in order to maximize the dimming range if flickering occurs at lower dimming levels
- Single pole or 3-way when used with a 3-way switch
- Fits easily into standard wallbox and is suitable for multi-gang installations
- Available in White, Ivory and Light Almond
- Shown with Decora Plus™ screwless wallplate option

[Leviton.com/dimmers](http://Leviton.com/dimmers)

**Toggle Slide Dimmer**
- Designed for optimal control of dimmable LED and CFL lamps. Also compatible with incandescent and halogen
- Separate ON/OFF toggle switch that preserves the selected brightness setting
- Microprocessor control to fine-tune for best performance with LED and CFL lamps
- Adjustment switch to modify the minimum light level in order to maximize the dimming range if flickering occurs at lower dimming levels
- Toggle switch with built-in locator light (can be disabled based upon user preference)
- Single pole or 3-way when used with a 3-way switch
- No removal of fins required for multi-gang installations
- Fits easily into standard wallbox and is suitable for multi-gang installations
- Available in White, Ivory and Light Almond
- Shown with Standard wallplate option

[Leviton.com/dimmers](http://Leviton.com/dimmers)
Fan Speed Controls

**Decora® Humidity Sensor and Fan Control**
- Automatically detects rising humidity in a room and activates the ventilation fan to lessen condensation which helps reduce mold and mildew
- User adjustable controls for sensitivity, humidity level, time out and air cycle mode
- Replaces a single pole switch for control of ventilation fan or a fan/light combination
- Fits in a standard wallbox and requires a neutral for operation
- Can be used to comply with the requirements of 2016 California Title 24, Part 6 Indoor Air Quality and Mechanical Ventilation
- Can be used to comply with the requirements of 2016 CALGREEN, Part II, Indoor Air Quality and Exhaust
- Air Cycle mode for continuous operation. Turns on the fan set minutes per hour to meet ASHRAE 62.2
- Compatible with bath fans rated at 1/6th HP and fan/light combinations with single switched load
- Available in White, Ivory and Light Almond
- Shown with Decora Plus™ screwless wallplate option

Leviton.com

**Decora Digital™ Quiet Fan Speed Control with Bluetooth® Technology**
- Manage a fan’s speed via App without the need of a hub, gateway or internet connection
- Features a Decora ON/OFF switch and low, medium, high or maximum fan speed control
- 1.5 Amp quiet fan speed control
- Timer function allows users to program the fan to switch on and off at designated times
- Designed to reduce the buzzing or humming of fan loads
- Single pole or 3-way when used with a Decora Digital remote (DD00R)
- Ideal for areas where ceiling fan noise could become distracting, such as libraries, bedrooms, home offices or sunrooms
- Available in White, Ivory and Light Almond
- Shown with Decora Plus™ screwless wallplate option

Leviton.com/decoradigital

**Decora® Slide Quiet Fan Speed Control**
- Features a Decora ON/OFF switch and slender slide bar for low, medium or high quiet fan speed control and preserves the selected setting
- Fits easily into standard wallbox and is suitable for multi-gang installations
- Designed to reduce the buzzing or humming of fan loads
- Single pole or 3-way when used with a 3-way switch
- Wired using leads, no neutral wire required
- Packaged with White, Ivory, and Light Almond color change kits
- Shown with Decora Plus™ screwless wallplate option

Leviton.com
SureSlide® Dual Quiet Fan/Light Control
- Separate controls for fan and light level selection
- Single pole dimmer designed for use with LED, CFL, incandescent and halogen lamps
- Adjustment dial to modify the minimum light level in order to maximize the dimming range if flickering occurs at lower dimming levels
- Special circuitry to reduce fan motor noise at low speeds
- Selection of low, medium or high fan speeds
- Shown with Decora Plus™ screwless wallplate option

SureSlide® Fan Speed Controls
- Integrated linear full range slide control for easy, precise operation
- Preset switch provides ON/OFF control without disturbing pre-selected setting
- Single pole or 3-way when used with a 3-way switch
- Special circuitry to reduce fan motor noise at low speeds
- Selection of low, medium or high fan speeds
- Quiet 1.5 amp fan speed control is perfect for libraries, home offices, bedrooms and any area where ceiling fan noise could become distracting
- Shown with Decora Plus™ screwless wallplate option

IllumaTech® Fan Speed Controls
- Fluid slide movement for fine adjustment of fan speed
- Preset switch provides ON/OFF control without disturbing pre-selected setting
- Single pole or 3-way when used with a 3-way switch
- Quiet 1.5 amp fan speed control is perfect for libraries, home offices, bedrooms and any area where ceiling fan noise could become distracting
- Full range 5 amp model also available
- Shown with Standard wallplate option

Trimatron™ Full Range Rotary Fan Speed Control
- Rotary knob rotates for the selection of low, medium, high and max fan speeds
- Single pole or 3-way when used with a 3-way switch
- Special circuitry to reduce fan motor noise at low speeds
- 1.5 Amp, 4-speed
- Shown with Standard wallplate option

Toggle Slide Quiet Fan Speed Control
- Combines a toggle ON/OFF switch with a contemporary slender slide bar for selection of low, medium or high fan speed
- Preset switch provides ON/OFF control without disturbing pre-selected setting
- Single pole or 3-way when used with a 3-way switch
- 1.5 Amp quiet fan speed control is ideal for libraries, study rooms and any area where ceiling fan noise could become distracting
- Shown with Standard wallplate option
Sensors (Occupancy/Vacancy)

**Decora® Dimming Occupancy Sensor**
- Combines the functionality of a sensor with the ambiance control of a dimmer
- Automatic ON/Automatic OFF operation for seamless energy management (Vacancy model available*)
- 180 degree field-of-view provides approximately 900 square feet of coverage
- Convenient push-button for manual control of lighting
- Four timing options for automatic shut off from 30 seconds to 30 minutes
- Adjustable ambient light override prevents lights from automatically turning ON when there is ample natural sunlight (Occupancy models only)
- No neutral required
- Single pole or 3-way when used with a 3-way switch
- For use with dimmable LED, dimmable CFL, incandescent and halogen loads
- Fits in standard wallbox and replaces single pole wall switch
- Shown with Decora Plus™ screwless wallplate option

Leviton.com/sensors

**Decora® Single Pole Relay Occupancy Sensor**
- Automatic ON/Automatic OFF operation for seamless energy management (Vacancy model* available)
- 180 degree field-of-view provides approximately 900 square feet of coverage
- Convenient push-button for manual control of lighting
- Four timing options for automatic shut off from 30 seconds to 30 minutes
- Adjustable ambient light override prevents lights from automatically turning ON when there is ample natural sunlight (Occupancy models only)
- Single pole - no neutral required
- For use with LED, CFL, incandescent, halogen, fluorescent or motor loads
- Fits in standard wallbox and replaces single pole wall switch
- Shown with Decora Plus™ screwless wallplate option

Leviton.com/sensors

*Vacancy model can be used to comply with 2016 California Title 24, Part 6 Vacancy Control Device Requirements.
Decora® Single Pole/3-Way Relay Occupancy Sensor
- Automatic ON/Automatic OFF operation for seamless energy management (Vacancy model available*)
- 180 degree field-of-view provides approximately 900 square feet of coverage
- Convenient push-button provides manual control of lighting
- Four timing options for automatic shut off from 30 seconds to 30 minutes
- Adjustable ambient light override prevents lights from automatically turning ON when there is ample natural sunlight (Occupancy models only)
- Neutral wire required for installation
- Single pole or 3-way when used with IPVOR sensor remote
- For use with LED, CFL, incandescent, halogen, fluorescent ballast or motor loads
- Fits in a standard wallbox and replaces single-pole wall switch
- Shown with Decora Plus™ screwless wallplate option

Leviton.com/sensors

LED Ceiling Occupancy Sensor Lampholder
- No wall switch required; lights turn on automatically when motion is detected and off after 3-minutes of inactivity
- 284 degree field-of-view
- Mounting holes accommodate 3 ¼” and 4” box configurations
- Pigtail leads for easy installation
- For indoor use only
- Energy efficient option for closets, workrooms, basements, storage areas, laundry/utility rooms and attics
- Should be mounted in accordance with NEC® code requirements of 6” clearance from the nearest point of a storage space

Leviton.com/sensors

*Vacancy model can be used to comply with 2016 California Title 24, Part 6 Vacancy Control Device Requirements.
**Personal Safety**

**SmartlockPro® Slim Self-Test GFCI Receptacle**
- Provides continuous ground-fault protection - detects and trips on actual ground-fault even when self-test is being conducted
- Auto-monitoring (self-test) exceeds the UL requirement
- Status Indicator Light provides feedback on power and protection status as well as indication of line/load reversal
- Patented Reset Lockout prevents reset if GFCI is damaged and cannot respond to a ground-fault
- Reduced depth for easy installation in any electrical box, even shallow ones
- Audible Alert model available. Alarm sounds when GFCI trips
- Shown with Decora Plus™ screwless wallplate option

Leviton.com/protection

**SmartlockPro® Outlet Branch Circuit (OBC) AFCI Receptacle**
- Offers advanced technology to help protect against fires resulting from electrical arc-faults
- Designed to detect a wide range of potentially hazardous arc-faults resulting from damage in branch circuit wiring as well as extensions to branches such as appliances/cord sets and respond by interrupting power upon detection
- Status Indicator Light provides feedback on power and protection status as well as indication of line/load reversal
- Patented Reset Lockout prevents reset if AFCI is damaged and cannot respond to an arc-fault
- Automatically tests the AFCI every time the RESET button is depressed; the AFCI will not reset if the AFCI circuit is not functioning properly
- Meets or exceeds UL requirements for tripping time on both series and parallel arcs
- Shown with Decora Plus™ screwless wallplate option

Leviton.com/protection

**SmartlockPro® Dual Function AFCI/GFCI Receptacle**
- Offers protection both from electrical fires that could result from arc-faults and from electrical shock due to ground-faults
- Helps protect home and family by working to detect arc-fault and ground-fault hazards and, if detected, quickly cuts off power to help avoid a potential fire or shock occurrence
- Offers a National Electrical Code® (NEC®) compliant option for AFCI/GFCI protection in residential kitchens and laundry areas for new construction, modifications/extensions and replacement receptacles
- May be used as a replacement for ungrounded receptacles, satisfying NEC requirements for both AFCI and GFCI protection
- Engineered to meet the latest UL standard for auto-monitoring (self-test); periodically conducts an automatic internal test to confirm that GFCI protected power is available
- Status Indicator Light provides feedback on power and protection status as well as indication of line/load reversal
- Patented Reset Lockout prevents reset if the device is damaged and cannot respond to an arc- or ground-fault
- Shown with Decora Plus™ screwless wallplate option

Leviton.com/protection
Home Safety

Decora® Tamper-Resistant Receptacle with LED Guide Light
- Sensor LED turns ON/OFF automatically based upon ambient light
- Shutter mechanism inside the receptacle blocks access to the contacts unless a two-prong plug is inserted, helping ensure foreign objects will be locked out
- Soft white LED light
- No lamps to replace
- Uses less than 1 watt of electricity
- GFCI model available (GFNL)
- Shown with Decora Plus™ screwless wallplate option
Leviton.com

Decora® Combination Switch with LED Guide Light
- Sensor LED turns ON/OFF automatically based upon ambient light
- No lamps to replace
- Uses less than 1 watt of electricity
- Recommended for bathrooms and children’s rooms
Leviton.com

Decora® LED Full Guide Light
- Sensor LED turns ON/OFF automatically based upon ambient light
- No lamps to replace
- Uses less than 1 watt of electricity
- Ideal for hallways and staircases
- Shown with Decora Plus™ screwless wallplate option
Leviton.com

Extra Duty Weatherproof While-in-Use Covers
- Ruggedly constructed to protect from moisture, debris and insects, while providing easy access to receptacles
- Available in vertical and horizontal configurations for a secure fit and neat appearance
- Adapter plates included for duplex and single receptacle openings
- UV resistant polycarbonate cover and base protect wiring devices from the elements without breaking, cracking or discoloration
- Stainless steel hinge pin offers added strength and resistance to the rigors of daily use
- Includes two inserts to cover the circular cord openings to prevent insects and debris from entering the cover while not in use
- Complies with NEC® 2017 Section 406.9(B)(1) for “Extra Duty” applications hoods
Leviton.com
Timers

**Decora Digital™ Timer Switch with Bluetooth® Technology**
- Combined functions of a standard wall switch and a countdown or programmable timer switch
- Use Decora Digital Dimmer & Timer App to set timer functions for easy control of lights and other switched loads
- Flexibility to program timed events at set or random times
- Astronomical clock automatically adjusts to local sunrise/sunset times
- Automatic daylight saving time adjustment
- Countdown sleep timer can be set for up to 12 hours
- Single pole or 3-way/multi-location control with Decora Digital remote (DD0SR)
- No fins for multi-gang installation
- For use with LED, CFL, incandescent, fluorescent, resistive and motor loads
- Shown with Decora Plus™ screwless wallplate option

Leviton.com/decoradigital

**Decora® 24-hour Programmable Timer**
- Flexibility to program all days, weekdays, weekends, or any combination of days
- Allows up to 50 ON/OFF event settings per day
- Single pole or 3-way (when used with VP0SR)
- Astronomical clock automatically adjusts to local sunrise/sunset times
- Timer settings at a glance; backlit LCD display
- Neutral required
- For use with LED, CFL, incandescent, resistive and motor loads
- Comes packaged in White with Ivory and Light Almond color change kits
- Shown with Decora Plus™ screwless wallplate option

Leviton.com/timers

**Decora® Preset Countdown Timers**
- Four preset buttons and “OFF” button
- Available options include 15, 30 or 60 minute; 2 and 12 hour
- Single pole and 3-way (when used with a Vizia + Switch Remote VP0SR)
- Each timer button has an adjacent green LED to indicate the current countdown time
- Neutral required
- For use with LED, CFL, incandescent and resistive/inductive loads
- Can be used for attic and exhaust fans, lighting and heat lamps
- Comes packaged in White with Ivory and Light Almond color change kits
- Shown with Decora Plus™ screwless wallplate option

Leviton.com/timers
Switches

**Decora® Switch**
- Our hallmark design - adds elegance and style to any room
- Quiet rocker switch
- Available in single pole, double pole, 3-way and 4-way
- 15 Amp 120/277 V AC
- Shown with Decora Plus™ screwless wallplate option
Leviton.com/switches

**Decora® Illuminated Switch**
- Quiet illuminated rocker switch
- Available in single pole, 3-way and 4-way
- When the switch is ON, the light is OFF; when the switch is OFF, the light is ON to easily locate in a dark room
- 15 Amp, 120 Volt
- Available in White, Ivory and Light Almond
- Shown with Decora Plus™ screwless wallplate option
Leviton.com/switches

**Decora® Dual Combination Switch**
- Controls two separate lights/loads in the same location
- Individual switches 15 Amp, 120 Volt/Device total 20 Amp, 120 Volt (20 Amp available)
Leviton.com/switches

**Toggle Switch**
- Traditional design
- Available in Illuminated and Dual Combination models
- Single pole, 3-way and 4-way
- 15 Amp, 120 Volt
- Shown with Standard wallplate option
Leviton.com/switches
Receptacles

Leviton offers a wide selection of receptacles.

**Tamper-Resistant Receptacles**
- Helps protect children from the hazards of inserting foreign objects into receptacle openings

**Single Receptacles**

**Duplex Receptacles**

**Power Receptacles**
- Typically used for cooking ranges/ovens and clothes dryer applications

**Decora®**
- Available exclusively from Leviton, our hallmark brand adds contemporary style to any room in the home
- Shown with Decora Plus™ screwless wallplate option

Leviton.com

---

**Dual Type-C™ with Power Delivery (PD) USB Charger Receptacle**
- 30W charge on a single port. Up to 2X the charging power with PD-enabled devices
- Two high-powered charging ports with 30W (6A) of total power
- Built-in overcurrent protection helps protect the electronics from receiving too much power, which can damage the device
- Internal thermo regulator prevents the electronics from overheating
- Shown with Decora Plus™ screwless wallplate option

Leviton.com/usb

**Type A and Type-C™ USB Charger/Tamper-Resistant Receptacle**
- Two high powered vertical USB Ports, one Type A and one Type-C, deliver a combined total of 5.1A charging current
- Smart chip technology recognizes and optimizes the charging requirements of individual devices
- Type-C port enables the cables to be inserted easily in either direction

Leviton.com/usb

**Pop-Up Floor Box Receptacle**
- Pre-wired terminal block for easy wiring access and installation
- Low profile cover recedes when not in use, reducing above-floor height to only ¼ inch
- Assembled with genuine Leviton wiring devices including GFCI, USB, Tamper-Resistant Receptacle and 3-Port QuickPort® Insert
- Contoured top plate for enhanced aesthetics
- Available in Brushed Nickel, Black, Brass, and Bronze finishes

Leviton.com
Leviton has wallplates to accommodate every need from receptacles, switches and combination configurations to phone and cable. Wallplates are available in different grades and come in a variety of materials including thermoplastic, thermoset and metal.

**Traditional**
- Our collection includes toggle switches and single, duplex and power receptacles

**Decora®**
- Adds a decorative element to any room for a finished look

**Decora Plus™ Screwless**
- Snap-on design for contemporary architectural styling
- Designed with top and bottom ratchets on single gang and top, bottom and side ratchets on multi-gang configurations for a secure fit

Wallplates are also available in different sizes. (Screwless not available in Midway and Oversized)

Leviton.com/wallplates
Exceptional design stands the test of time and our hallmark Decora brand is no exception. Decora has set the industry standard for style and performance with devices ranging from switches, receptacles and dimmers to USB charger devices, timers, sensors and our exciting Decora Smart™ products. Decora devices add contemporary elegance and a finishing touch to any room in the home.

The popularity of the Decora brand has inspired imitators. Look for the Leviton name to ensure the device you install is a genuine Decora product.

Leviton.com/decora
Renu® is our colorful collection of electrical wiring devices including switches, receptacles, dimmers and wallplates featuring easily changeable faceplates.

- Available in 20 popular colors plus stainless steel look wallplate
- Refresh the color of any Renu device without rewiring using our color change kits. Simply snap off the faceplate on the device and snap on the new color face
- Coordinating screwless wallplates snap on to finish the look
- Shallow depth for easy installation

Available products include:
- Switch
- USB Charger Device
- GFCI
- Receptacle
- Dimmer/Remote
- Combination Devices
- Datacom
- 15 Amp, 20 Amp, 3-way and 4-way available

Leviton.com/renu
Structured Media

Structured Media® Centers
- Manage and distribute the entire wireless and wired network including voice, data, audio, and video from one central location
- Options include smaller entry level enclosures, plastic enclosures designed to house wireless routers, and larger 42” enclosures for high tech, custom built houses

Data Patching & Distribution
- Cat 6 and Cat 5e panels and modules provide data distribution throughout houses of any size
- Premium Twist & Mount Panels make installation easy and provide access for moves, additions, or changes in the home network

Telephone Patching & Distribution
- Deliver telephone distribution, modules, and the secure feel and sound of a telephone landline
- Telephone Input Distribution Panel (TIDP) supports inputs for use with “triple play” modems and complements the look and simplicity of Twist & Mount Patch Panels

Switches
- Network PCs, printers and other peripherals beyond router capacity
- Gigabit Ethernet Switch available in 8-port version
- 100 Mbps Ethernet switch available in 5-port version

Premium & Passive CATV Splitters
- Distribute incoming RF signal to locations through a home via coaxial cable using Leviton CATV splitters to optimize the performance of digital cable signals to handle HDTV

Ultra High-Flex Patch Cords
- The Structured Media® system you install today will likely change tomorrow. Ultra High Flex Patch Cords help make changes easy. They allow for tighter radius connections and a cleaner finished appearance inside a dressed Structured Media enclosure

Integrated Power Supply
- Structured Media® systems rely on active gear that require low voltage power and surge protection. Leviton offers a range of AC and DC power supplies that can help minimize the need for bulky power adapters within enclosures

Accessories
- A variety of accessories are available to help populate and organize your Structured Media Center. These include a shelf bracket, a multi-bay tube to connect separate enclosures, saddle ties, and trim rings

Leviton.com/ConnectedHome
Home Entertainment

JBL® Speakers
- Signature JBL Loudspeaker performance
- Paintable, nearly invisible zero-bezel magnetic grilles seamlessly blend into wall or ceiling architecture
- Long-throw woofers with rubber surrounds provide high output with low distortion
- Optional rough-in kits available for pre-construction installation

Available Models:
- LAE6C: 6.5” In-Ceiling Speaker, 80 Watts
- LAE8C: 8” In-Ceiling Speaker, 100 Watts
- LAE6I: 6.5” In-Wall Speaker, 80 Watts
- LAE8I: 8” In-Wall Speaker, 100 Watts
- LAE6D: 6.5” In-Wall Stereo Speaker, 80 Watts

Electric Vehicle Charging

Evr-Green® e30 & e40 Electric Vehicle Charging Stations
- Compatible with all Electric Vehicle Supply Equipment (EVSE) Standards and Recommended Practices, including SAE J1772™, NEC 625, UL 2231, and UL 2594
- Compact size, and unique wiring compartment design provides a hassle-free installation
- Water-Resistant enclosure is rated NEMA Type 3R for indoor and outdoor use
- Thermoplastic, vandal-proof enclosure withstands the harshest environments
- “Auto-Reclosure” feature enables charging to restart following a minor fault, thereby reducing the chance of having an undercharged battery
- Ground monitor interrupter circuit for safety
- Integrated On/Off switch to minimize standby power

Leviton.com/evrgreen
