**Approachable**
Modern design with intuitive functionality and appealing aesthetics

**Smart**
Wi-Fi® or Ethernet connection options for remote monitoring, tripping and firmware updates

**Safer**
Circuit breakers with GFCI protection exceed UL requirements¹

**Fastest Installation**
Allows for all wiring at rough-in, without any circuit breakers present²

---

1. The UL943 standard exempts GFCI circuit breakers from detecting and warning when the trip solenoid and/or switching semiconductor fails in the “open” state, rendering the GFCI circuit breaker incapable of tripping in response to a fault condition, resulting in complete loss of GFCI protection.

2. For applications up to 60A when using copper wire; or 50A when using aluminum wire.

*Smart Hub sold separately*

What’s a Smart Home without a Smart Circuit Breaker?

Using the intuitive My Leviton app, homeowners who select the Leviton Smart Load Center will enjoy easy access to four essential elements of their load center’s data via a smartphone, tablet or desktop.

Energy Use
- View real-time energy consumption: total aggregate, individual circuit, or trends by day, week, month, and year
- Calculate your approximate total energy cost per month

Control
- Remotely turn OFF any circuit breaker
- View system status in real time and detect if critical loads need to be addressed

Alerts & Updates
- Know when and why a circuit breaker trips
- Be informed if a load is ON or not drawing power for an extended time
- Via remote firmware updates, get the latest protection capabilities and newest features
