Twist-On Connector

**APPLICATION**
Leviton Twist-On Connectors support fast termination of RG-59 or RG-6 coaxial cables for video applications.

**FEATURES**
- 75 Ohm nominal impedance
- Frequency range equals 0-4GHz
- Nickel plated for improved electrical contact and corrosion resistance

**DESIGN CONSIDERATIONS**
- For use with RG-59 or RG-6 coaxial cable
- Threaded twist-on sleeve secures shield and cable jacket to connector for permanent connection

**PHYSICAL SPECIFICATIONS**
- Dimensions: See page two
- Materials: Nickel-plated brass

**COUNTRY OF ORIGIN**
China

**WARRANTY INFORMATION**
