Mobile Device Station

APPLICATION
The Leviton Mobile Device Station creates a convenient mounted location to charge a portable device without the need to make new holes in a wall. The station attaches to a power outlet wallplate in three different mounting configurations and includes integrated cable management. The simple open design allows for easy installation and maintains the touchscreen functionality of the device while in the cradle. The Mobile Device Station’s flexible polycarbonate design is compatible with most smartphones and portable music devices and is available in three colors.

FEATURES
• Provides a safe convenient place for charging a mobile device
• Does not require any new holes in the wall
• Integrated cable management for charging cables
• Ideal for use with audio systems
• Cable notch keeps cable ready for insertion
• Right, center, or left side mounting options
• Easy three-step installation
• Installs with a screwdriver, no additional tools needed
• Available in three colors:
  Decora: White, Light Almond, Black
  Renu: White on White, Navajo Sand, Onyx Black

DESIGN CONSIDERATIONS
• Compatible with most smartphones and MP3 players
• Requires a Decora or Renu wallplate, sold separately
• Made of flexible polycarbonate
• Holds up to five pounds
• Can be mounted as a stand-alone unit or with other devices
• Compatible with Decora Plus Wallplates when used with standard NEMA back boxes that sit flush or are slightly recessed in the wall
• Not compatible with Decora Plus Wallplates when used with low-voltage box eliminators

STANDARDS COMPLIANCE
• RoHS compliant
