18-Port Structured Media® Panel

APPLICATION
The Leviton 18-Port Structured Media Panel combines a Telephone Distribution Board and three Category 5e Voice and Data Boards in a dedicated bracket for multiline systems and expanded home networking. The panel provides two to four lines of service to up to 19 voice and/or data locations (additional module required). Distribute “Line 1” service to up to 12 different locations and distribute four-line service to up to eight different locations. Link with other distribution panels or modules to expand the system.

FEATURES
• Isolated RJ-45 jack and punchdown security interface
• Modular RJ-45 jacks and 4-pair 110-type IDC punchdowns

DESIGN CONSIDERATIONS
• Fits easily into any Leviton Structured Media enclosure, or can be used as a stand-alone unit
• Determine outlet locations and carefully plan cable routing to ensure the selected board satisfies requirements
• Additional Category 5e Voice and Data Boards available separately
• Use provided 8P8C patch cord to link the Telephone Line Distribution Board to media distribution boards
• Use high-speed UTP cable to route data, phone, fax, or modem signals

STANDARDS COMPLIANCE
• cULus Listed
• ANSI/TIA-568-C.2
• ANSI/TIA-1096-A
