14" & 21" Structured Media® Enclosures

APPLICATION
14- and 21-inch Structured Media Enclosures make running cable and managing media both simple and cost effective. They are designed to provide a central distribution consolidation point, and can be installed and concealed in a closet or behind a flat-screen display. Ideal for supporting home, classroom, and small office technologies, enclosures accommodate the distribution of voice, data, video, audio, security, and IT/AV control applications.

SPECIFICATION
Enclosures shall be one-piece (excluding cover) boxes, made of 20-gauge, white powder-coated steel. They shall be flush mountable, with four wood screws (provided) on standard 16-inch center wall studs prior to drywall, or surface mountable after drywall installation. Each enclosure shall have a cutout to accommodate a single-gang J-Box power module, AC power module, or a Mini or Universal DC power supply. The enclosures shall include multiple knockouts on the top and bottom to support conduit up to two inches in diameter and facilitate cable routing and entry. The enclosure shall be cULus Listed and comply with ANSI/TIA-568-C, ANSI/TIA-570-B, and ANSI/TIA-607 standards.

WARRANTY INFORMATION
For a copy of Leviton product warranties, visit www.leviton.com/warranty.

FEATURES
• Bottom cutout pattern accommodates AC and DC power modules
• Mounting slots on the enclosure simplify adjustment for different drywall depths (1/2 inch, 5/8 inch, and 3/4 inch)
• Enclosures may be surface or flush mounted
• Optional Flush-Mount Cover overlaps 3/4 inch to hide possible uneven drywall cuts around the enclosure
• Ships with a cardboard insert to help prevent drywall debris or paint overspray
• Multiple knockouts on the top and bottom support conduit up to two inches in diameter and facilitate cable routing and entry
• Self-healing foam grommets protect cable bundles and prevent dust from entering the enclosure
• 14-inch enclosure includes optional ceiling-mount kit for installing in non-plenum drop-ceiling applications
• Mounting brackets (sold separately) can accommodate an array of devices

IMPORTANT NOTES
• Flush mounting should precede drywall installation
• Enclosure not intended to be mounted in firewall applications
• Premium Hinged Vented Doors recommended when using active equipment inside enclosures, such as IT/AV signal extenders, routers, and switches
• For enterprise PON applications, recommended capacity of the 14-inch enclosure is one 32-leg passive optical splitter and three 12-port SC/APC adapter plates

STANDARDS COMPLIANCE
cULus Listed: ANSI/UL 1863 – Communication Circuit Accessories
ANSI/UL 985 – Household Fire-Warning System Units
ANSI/UL 1023 – Household Burglar-Alarm System Units
CAN/CSA C22.2 No. 182.4-M90 (R2010) – Plugs, Receptacles, and Connectors for Communication Systems

PHYSICAL SPECIFICATIONS
Dimensions: See page two
Materials: Enclosure: 20-gauge, white powder-coated steel
Covers: 18-gauge, white powder-coated steel
Capacity: Maximum of two full-sized distribution panels

COUNTRY OF ORIGIN
Mexico
