Five-Ring Horizontal Cable Managers & Covers

APPLICATION
Leviton Five-Ring Horizontal Cable Managers are ideal for light-duty cord distribution at the front of industry-standard 19-inch equipment racks, cabinets, and hinged wall-mounted brackets. Covers are available (sold separately) to provide a clean, finished appearance.

FEATURES
• Distribution rings are radius-edged to protect cable from nicks or wear
• Oversized distribution rings accommodate large quantities of patch cords
• Five-ring design reduces cord stress and improves containment near patch panels
• Use as an alternate mode of horizontal management between patch panels
• Managers available in 1RU and 2RU options with 4-inch or 6-inch deep rings
• 1RU and 2RU metal covers are available (sold separately)

DESIGN CONSIDERATIONS
• Verify adequate space for ring clearance
• Install managers above and below patch panels
• Four #12-24 screws supplied with each manager

STANDARDS COMPLIANCE
• ANSI/TIA-568-D
• cULus
• RoHS

PHYSICAL SPECIFICATIONS
Dimensions: See page two
Materials: 16-gauge steel with a black powder-coat finish

COUNTRY OF ORIGIN
See page two

SPECIFICATION
The five-ring cable manager shall provide the capability to organize and contain patch cords on the front of the manager. The front of the manager shall provide five horizontal distribution rings to reduce stress on stored cables and to retain optimal cable geometry. All distribution rings shall have edges with a radius to protect cables from nicks and tears. Managers shall be available in 1RU and 2RU heights with either 4-inch or 6-inch deep rings. Metal covers shall be available, sold separately. Material shall be 16-gauge steel with a black powder-coat finish.
