Multimedia Outlet System and QuickPort® Connectivity Solutions Guide
Innovative Connector Systems For Audiovisual Applications
Innovative Connector Solutions For Every Application

When you connect to an audio, video, or data system in a conference room, classroom, or living room you expect quality and optimum performance. That expectation is the force that drives the design of our innovative line of audio, video, and data connectors. Leviton connectors and our modular Multimedia Outlet System (MOS) provide outstanding signal quality, cost-effective custom options, and quality connectivity solutions for today’s technology.

Classrooms have left behind the old days of slide projectors and chalkboards and moved into an era of technology-based educational tools. Leviton’s premier audio, video, and data solutions provide the connectivity needed for everything from multimedia projectors to tablets so educators get the optimum performance, stunning video and crystal clear audio required to ensure a quality learning environment.

**Enhanced Multimedia Outlet System (MOS)**

VGA and Component Video

- Cat 5e UTP Cable: VGA
- Cat 5e UTP Cable: Component Video
- Cat 5e UTP Cable: 3.5 mm
- QuickPort® VGA, RCA, Data, and 3.5 mm Connectivity

**Installed Cost Comparison**

Leviton’s educational solution can reduce installation costs by up to 43%

**Common classroom applications** include connectivity solutions for:
- Smart boards
- Audio systems
- PC & laptop computers
- Wireless access point
- Projectors
- Tablets
Companies require stable connections to communicate with associates both inside and outside of the office. Have confidence that all your presentations and meetings will run smoothly with a conference room equipped with quality audio, video, and data products. Leviton’s connectivity solutions for business environments are easy to install and use, and provide reliable connections for a superior overall value.

Common conference room applications include connectivity solutions for:
- Projectors
- DVD players
- Audio systems
- Laptop computers
- Tablets
- Phone
- Wireless access point

**QuickPort®** VGA, RCA, HDMI, USB, Data, and 3.5 mm Connectivity
Mixed-use buildings combine commercial space with residential living areas and require a custom connectivity solution for flat-screen displays. The restaurant on the ground floor may require a fast data network, while the tenant on the sixth floor wants a seamless home-media experience. Leviton’s audio, video, and data systems provide a series of options to meet the needs of almost any application. Solutions are designed to allow for easy additions and modifications as needs change.

#### Common residential and mixed-use applications include connectivity solutions for:
- Televisions
- Home media centers
- Audio systems
The innovative Multimedia Outlet System (MOS) is designed for quick front-load installation of popular audio, video, and data connector modules. Modular design allows for simple field changes, enhanced connectivity solutions, and a multitude of configuration options.

The Multimedia Outlet System consists of surface-mount boxes, as well as single- and dual-gang wallplates, which accept a variety of copper, fiber, audio, video, and USB connectors.

**Multimedia Outlet System**

- Front-load installation allows for simple moves, adds, and changes
- Modules are available in 0.5, 1, 1.5, and 2 unit high sizes
- Allows flexibility in applications with a variety of voice, data, audio, and video needs

---

### Enhanced Multimedia Outlet System Modules

**A complete Leviton solution for all audio video applications:**

**For Contractors:**
- Fast tried and true 110 punch-down field termination
- Standard Cat 5e or higher, UTP or shielded cable
- Allows use of remnant cable
- Complete customizable Leviton MOS and QuickPort® solution

**For Specifiers:**
- Category cable familiarity and confidence
- Migration path to digital without changes to in-wall cables
- Cheaper, faster solution for typical applications

VGA - PC/ Monitor  
Support cable runs up to 75 ft.  
Component Video  
Support cable runs up to 100 ft.  
Composite/Stereo  
Support cable runs up to 100 ft.
The Leviton Multimedia Outlet System (MOS) and QuickPort® Solutions work together to provide hundreds of possible configurations. Select MOS, MOS and QuickPort, or QuickPort-only configurations. Wallplate options can include ID windows for labeling and identification.

### Multimedia Outlet System

- **RCA Feedthrough**
- **VGA Feedthrough**
- **VGA Screw Terminal**

### QuickPort Component Solutions

- **AUDIO**
  - Audio RCA
  - Audio 3.5 mm
  - Speaker Binding Post
  - Speaker Banana Jack

- **VIDEO**
  - Video HDMI®
  - Video RCA
  - Video BNC
  - Video F-Con
  - Video DVI
  - Video S-Vid

- **NETWORK**
  - Data Cat 5e
  - Data Cat 6
  - Data Cat 6A

- **GENERAL**
  - USB

### QuickPort Wallplates

- **Stainless-Steel Wallplates**
- **Colored-Plastic Wallplates**

Additional QuickPort wallplate options available at Leviton.com.

THE SMART CHOICE FOR
A BETTER NETWORK

High-performance connectivity
backed by the industry’s best
service and support

We invent the industry’s best technologies. We build
them to last. And we stand behind every product
and every installation – delivering industry-leading
performance and unbeatable service and support –
throughout the life of your structured cabling system.
Add in the peace of mind that comes from working with
a stable, century-old supplier and you get far and away
the highest return on investment in the industry.
