SPOTLIGHT Wireless Enclosure Connected Multi-Bay System

Use the easy-to-install Multi-Bay Attachment Tube between two or more Wireless Structured Media Center Enclosures to create a secure, fully isolated location for service provider equipment.

- Isolates service provider equipment from end-user connectivity and controls for better security.
- Heat separation and containment keeps equipment in both enclosures cooler and more efficient.
- Works with any size Wireless Structured Media Center. Include Lock and Key for added security on one or more of the connected enclosures.
