Power When You Need It, Concealed When You Don’t

The Pop-Up Floor Box Receptacle offers a modern, practical way to attractively conceal electrical wiring devices in homes and businesses, while still providing accessibility to power when needed. Featuring a sleek low profile and stylish metal cover that recesses neatly into the floor when not in use, it takes only the press of a button to make the receptacle available.

The Pop-Up Floor Box Receptacle may be used to satisfy the appropriate code requirements for residential and commercial applications; it also offers protection from ingress of water spray when closed and meets or exceeds scrub water test for safety.

Pop-Up Floor Box Receptacles are available in the following configurations:
- USB Charger/Tamper-Resistant Receptacle
- Self-Test Tamper-Resistant GFCI Receptacle
- Decora® Tamper-Resistant Receptacle
- 3-Port QuickPort Insert (Leviton connectors sold separately)
Features
• Contoured top plate for enhanced aesthetics
• Side latch open/close mechanism prevents scratching of wiring device face
• Low profile cover recesses when not in use, reducing above-floor height to only ¼ inch
• Assembled with genuine Leviton wiring devices
• Pre-wired terminal block for easy wiring access and installation
• IP 44 Rated: protection from ingress of water spray from any direction when closed
• Meets or exceeds UL 514A requirements including scrub water test
• Tamper-resistant to comply with the latest NEC® requirements for tamper-resistant receptacles in residences and childcare facilities
• Adjustable concrete rated electrical box included
• Available in: Brushed Nickel, Black, Brass, and Bronze finishes

Perfect for Residential and Commercial Applications

Homes and Multifamily Units with
• Floor to ceiling windows
• Great rooms
• Other open concept spaces
