**APPLICATION**
Leviton Decora SureSlide® controls provide smooth, slide-action, full-range dimming for a variety of load types. Pre-set models feature a separate ON/OFF switch, allowing the user to set the desired brightness level to operate automatically with the ON/OFF function. The 6672 is a slide-to-off model for users who choose to adjust lighting levels each time the device is used. The SureSlide line offers models that are designed specifically for dimmable LED and CFL lamps, models for ELV applications, and also a fan speed control.

**FEATURES AND BENEFITS**
- Integrated linear full-range slide control for easy, precise operation
- Preset versions provide single pole or 3-way lighting control when used with a 3-way switch
- Slim, compact housing fits easily into a standard wallbox and is suitable for multi-gang installations
- Built-in radio/TV interference filter
- LED/CFL/Incandescent Dimmer
  - Designed specifically for dimmable LED and CFL lamps as well as incandescent
  - Features a built-in starting technology for CFL lamps
  - Wider dimming range on LED and CFL lamps than conventional incandescent dimmers
  - Optional programming feature allows for users to modify the dimming range to optimize low light level performance when required
  - 6672 and 6674 can be used to comply with 2016 California Title 24, Part 6 Indoor Lighting Switching Devices and Controls
- Quiet Fan Speed Control
  - Special circuitry to reduce fan motor noise at low speeds
  - Quiet 1.5 amp fan speed control is perfect for libraries, home offices, bedrooms and any area where ceiling fan noise could become distracting
  - Selection of low, medium or high fan speeds
- Dual Quiet Fan/Light Control
  - Separate controls for fan and light level selection
  - Designed for use with LED/CFL and incandescent lamps
  - Minimum adjustment dial to modify the dimming range
  - Special circuitry to reduce fan motor noise at low speeds
  - Selection of low, medium or high fan speeds
- Lamp Selector/Programming Switch
  - LED/Incandescent mode optimizes dimming of LED lamps
  - CFL Mode provides “kick start” for CFL lamps. Also can be used to re-calibrate the preset to ensure lamp starts at lowest light level
- Dual Quiet Fan/Light Control
