### INSTALLATION AND QUICK START GUIDE

1. **LumaCAN Port**
   - The LumaCAN Port is the side of the DRC Smart Pack that is plugged into the LumaCAN network. Plug in CAT6A (or better) cable with standard RJ45 connector. If two connections are available upon request. LumaCAN connections must be wired as Class 2 and as such should be configured for use with other Class 1 devices it shall be wired using typical NEC Class 1 requirements.

2. **Power Switch**
   - Directional Switch - (POLARIZED) (POLARIZED)
   - The Systems Designer and Installer must verify that any and all power supplies which extend out of the electrical box.
   - All LumaCAN units must be isolated and tested prior to power-up of the system.
**SETTING THE LUMACA N ADDRESS**

To ensure proper operation, both the CAN and LumaCAN addresses must be set for each CAN SmartPort. The first 8 switches of the Dip Switch are used to set the CAN address. During operation, Dip switches 9 & 10 must be in the off position. Valid node addresses 0-255 are defined in the CAN Address Tuning Guide. If a node address is required, it should be set to decimal 00 to 94 to match the protocol address of Unit 0. This is done by entering the node address followed by the node address in the Dip Switch. If an incorrect node address is entered, the device will not communicate with the system.

**FACTORY DEFAULT**

If you desire to return all settings to their factory default position, while the device is powered up, raise dip switch 1 to the on position. This will restore all factory default settings, including the channel number, universe number, the channel range for that universe, the DIP switch setting for the universe, and the actual application to be deleted. Note that this will leave the device in an inoperable state until a software update is performed.

**FACTORY DEFAULT**

If your device is "bricked", powering up the device with all dip switches in the on position will cause the device to restore all factory default settings. Proceed to set the channel number and LumaCAN address.

**INDUSTRY CANADA COMPLIANCE STATEMENT**

This device complies with Industry Canada license-exempt RSS standards. Operation is subject to the following two conditions:

1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation of the device.

**IMPORTANT** Any changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate this equipment. This Class A equipment complies with Canadian ICES-003.

**TECHNICAL SUPPORT**

For Technical Support, please contact Leviton Manufacturing or Contact Leviton.com or (800) 950-6004.

**FOR CANADA ONLY**

For assistance with your product purchase, residents of Canada should contact Leviton in writing at Leviton Manufacturing of Canada, 162 Hymus Blvd., Pointe-Claire, Quebec, Canada H9X 1E9 or telephone 1-800-455-3530.

**LIMITED 2 YEAR WARRANTY AND EXCLUSIONS**

Leviton warrants to the original consumer purchaser and not for the benefit of anyone else that this product at the time of its sale by Leviton is free from defects in material and workmanship. This warranty shall be void if the product is installed improperly, in an improper environment, overloaded, misused, abused, or altered in any manner, or is not used under normal operating conditions. This warranty shall be void if the product is not used in accordance with Leviton’s published specifications and operating instructions. In the event this product fails to conform to the warranty, it must be returned to Leviton or its authorized agent for inspection. Leviton, at its option, may correct such defects by repair or replacement, at its option. For details visit www.leviton.com or call 1-800-605-3333. The warranty excludes any incidental or consequential damages, including without limitation, damages to, or loss of use of, any equipment, not sold or sold or prorated or by the party to be furnished without warranty obligation. The warranties provided herein are the warranties under the warranty, whether based on contract, tort, or otherwise. Leviton warrants to the original consumer purchaser to repair or replace any defective product at no charge for parts or labor for a period of two years. Leviton is liable only for those products which were purchased directly from Leviton for use in the home or office by the consumer. In no event shall Leviton be liable for any damages, including, but not limited to, incidental, indirect, or special damages, including without limitation, damages to, or loss of use of, any equipment, not sold or sold or prorated or by the party to be furnished without warranty obligation.
